To Whom it may Concern

Remedy Drug Store Company Inc. recently relocated to new office space which was double the size of our previous location. With new décor in the office consisting of the carpeting, painting, etc., we were also in need of additional furniture consisting of workstations, boardroom tables and chairs, lunchroom tables and chairs, office furniture and file cabinets. Wanting a new clean and professional “look”, and not wanting to buy all new furniture, we researched the possibility of used and/or refurbished furniture and Envirotech Office Systems Inc. provided us with the opportunity to fulfill our needs.

We were very impressed with Envirotech’s professional sales, design, installation and customer service teams, led by Ahmet Onder. From day one, Ahmet was extremely helpful and knowledgeable in assisting us with meeting our needs, resulting in an office image consisting of both quality and efficiency. With the relocation occurring over a 24 hour period, the crew supplied by Envirotech was professional, courteous and knowledgeable. The customer support team following the installation, led by Arlene Stadelmayer, continues to be efficient and responsive.

Envirotech exceeded our expectations on this project and we have continued to purchase furniture from them as the need arises. Ahmet and the team at Envirotech continue to be the first people I call with any office furniture needs.

Regards,

Kerry Koblinsky
Director, Human Resources
